Medical Specialties Distributors, LLC (MSD) Introduces Enhanced Corbridge Technologies Cormix EVA TPN Containers

Stoughton, MA – June 14, 2010 – Medical Specialties Distributors, LLC (MSD), the leading supplier of healthcare products and biomedical equipment rentals and services to the home infusion market, announced the introduction of their enhanced Corbridge Technologies' Cormix EVA TPN containers.

All Cormix EVA TPN containers are latex free, constructed without harmful plasticizers such as DEHP which can leach into TPN solutions, and are available exclusively from MSD. In addition to the benefit of superior stability due to the elimination of plasticizers, Cormix EVA also provides increased strength, reducing the risk of breaking and greater clarity, allowing for improved inspection of the admixture. EVA material is also more environmentally friendly than some other materials after disposal.

The newly improved Cormix line now consists of Compounder, Two Port, Gravity and Dual Chamber bags. Cormix EVA TPN containers are compatible with various compounding systems requiring blunt spike on the filling leg with bag sizes ranging from 250mL to four liters.

The newly added Dual Chamber Bags store fat emulsion separate from other TPN components allowing improved inspection and greater stability. Available in 1.5 liter and 3 liter sizes, the Dual Chamber Bags are legless with 1 leg compounder set, or 1 and 3 leg gravity set options.

Cormix EVA Gravity Bags are also available with two detachable legs in one, two or three liter sizes; and with three detachable legs in one, two, three or four liter bags. Empty Two Port containers with an injection site for filling and separate port for patient access are also available in the Cormix line.

According to Richard Worthen, Senior Vice President of Sales at MSD, Cormix EVA TPN containers provide MSD "customers with a high quality, cost effective product alternative." We have "upgraded the product", Worthen continued, creating a more durable, environmentally friendlier TPN container.

For more information on Corbridge Technologies' Cormix EVA TPN containers and other products and services available from MSD, please call 800-967-6400 or on the web at www.msdonline.com.
