Dear Customer,

On January 3, 2011, Medical Specialties Distributors, LLC ("MSD") received notice from the manufacturer of its convenience kits, Medikmark, Inc., that a component in the kits was under a voluntary recall by its manufacturer, Triad Medical. Triad Medical advised Medikmark by letter (copy attached) dated January 3, 2011 of a recall of all lots of individually packaged units of ALCOHOL PREP PADS, ALCOHOL SWABS and ALCOHOL SWABSTICKS manufactured by Triad Group due to a potential contamination.

Subsequently, on January 17, 2011, MSD received a letter from Medikmark (copy attached) instructing MSD what actions to follow in relation to the Recall. As a result of Triad's recall, Medikmark is instituting an FDA Approved field correction of Medikmark and Medstream convenience kits containing the recalled components.

The field correction involves attaching a notice to each affected kit informing the user that the Alcohol Products in the kit are subject to recall and should be set aside at the time the kit is opened for use, and subsequently rendered unusable and discarded. This recall should be carried out to the end user level.

The following Spreadsheets list the Medikmark and Medstream Convenience kits and lot numbers that contain the affected Triad Alcohol Products. Additionally, enclosed please find a Recall Acknowledgement Form, we ask that you follow the instruction on the form. We have also included 150 Field Correction Labels that should be applied to each kit you currently have in your inventory. If you need additional labels follow the instruction on the Recall Acknowledgement Form.

If you have any questions in relation to the actions needed to be taken please contact MSD's Customer Service Department at 800-967-6400.

Sincerely,

MSD Recall Coordinator

## Urgent Product Recall

January 17, 2011

Dear Tanin,

Triad advised Medikmark by letter (attached) dated January 3, 2011 (received by Medikmark on January 10<sup>th</sup>) of a recall of all lots of individually packaged units of ALCOHOL PREP PADS, ALCOHOL SWABS and ALCOHOL SWABSTICKS manufactured by Triad Group because of potential contamination. Our records indicate that units subject to recall were included as a component of multi-component, sterile medical convenience kits supplied to MSD and identified as:

The following Spreadsheet(s) list the Convenience kit and lot numbers that contain the affected Triad Alcohol Products.

As a result of Triad's recall, Medikmark is instituting a field correction of convenience kits containing the recalled components.

The field correction involves attaching a notice to each affected kit that the Alcohol Products in the kit are subject to recall and should be set aside at the time the kit is opened for use, and subsequently rendered unusable and discarded. This recall should be carried out to the end user level.

Would you please complete the attached Recall Acknowledgement form and email to [triadrecall.mmk@medikmark.com](mailto:triadrecall.mmk@medikmark.com) to advise how many kits remain in your inventory as well as the inventory of your customers that are subject to this field correction, so that the labels can be provided. You may also fax this form to 847/887-0766 or mail to Medikmark Inc, 3600 Bur Wood Drive, Waukegan, IL 60085.

Sincerely,

Fran Kamensky  
VP of Customer Operations

**URGENT DRUG RECALL**

Medikmark  
3600 Burr Wood Dr  
Waukegan, IL 60085

Dear Customer:

This is to inform you of a voluntary product recall involving **ALL LOTS** of ALCOHOL PREP PADS, ALCOHOL SWABS, and ALCOHOL SWABSTICKS manufactured by Triad Group but which has been private labeled for many accounts. This recall involves those products marked as STERILE as well as non-sterile products.

This recall has been initiated due to concerns from a customer about potential contamination of the products with an objectionable organism that may or may not be related to Triad's manufacture of these products. We are, out of an abundance of caution, recalling these lots and revalidating our production lines to ensure that we are not the source of these contamination issues.

**Please immediately examine your inventory and quarantine product subject to the recall.** In addition, if you have further distributed this product, please identify your customers and notify them at once of this product recall. Your notification may be enhanced by including a copy of this recall notification letter. This recall should be carried out to the user or consumer level. Your assistance is appreciated and necessary to prevent potential patient harm.

Please complete and return the attached response form as soon as possible. **DO NOT RETURN THE PRODUCT ON YOUR OWN.** A return authorization number will be issued once the attached response form has been received. No product will be accepted for a return without a return authorization number. We will credit your account for the returned product and pay for the shipping costs to return to Triad. **We ask that you fill out and return the response form even if you have no products subject to this recall, so it will help in our reporting to FDA.**

If you have any questions please call Triad Group Customer Service Monday through Friday between the hours of 8:30 A.M. and 4:00 P.M. Central Time: 262-538-2900 x2761 or e-mail at the following address: [recall.coordinator@triad-group.net](mailto:recall.coordinator@triad-group.net)

This recall is being conducted with the knowledge of the U.S. Food & Drug Administration.

Yours truly,  
Eric Haertle/COO

## **IMPORTANT KIT FIELD CORRECTION**

**Notice:** Triad announced the recall of the sterile Alcohol Pads and Swabs/sticks contained in this kit after it was sealed and sterilized. All other components in the kit are not affected by the recall, so the corrective activity is being implemented in the field as described below.

### **Corrective Action:**

1. At the time this sterile kit is opened for use, any one of the following part numbers 10-3100, 10-3002, 10-0101, 10-8531, 11-SA01 and 11-SA03 manufactured by Triad should be identified and set aside.
2. The recalled Triad part numbers should be rendered unusable to protect against inadvertent use, and then disposed of pursuant to the medical waste policies in effect at your institution.
